

Gunbar Private Water Supply Board

Policy 1 - Definitions

Gunbar Private Water Supply District

Gunbar Private Water Supply District (GPWSD) is the irrigation district as defined under the former NSW Private Irrigation District Act 1973 and as applied in the NSW Water Act 2000. The District defined boundaries may be viewed at the GPWSB office.

Water Entitlement (previously Stock & Domestic Right)

The total volume of water shares recorded in the Gunbar Private Water Supply Board (GPWSB) Irrigation Water Entitlement Register (formally S&D Rights Register) that are associated with a property located within the defined area of the GPWSB.

Delivery Entitlement (previously Delivery Right)

Delivery Entitlement provides the right to have water allocation delivered through the Gunbar pipeline via a registered property outlet(s) according to the GPWSB Operational Delivery Rules. The total number of Delivery Entitlements associated with a property located in the defined area of the GPWSB is recorded in the GPWSB's Delivery Entitlements Register (formally Delivery Rights Register).

Registered Property Outlet

An outlet that has been installed in accordance with guidelines issued by the GPWSB for the purpose of accessing water allocation delivered to a particular property.

Accepted Metering Device

A device that has been approved by GPWSD's Board of Management (Board) for the purpose of metering the volume of water extracted at a Registered Property Outlet.

Member

A member is defined as a land owner within the boundary of the Hay PID that receives water deliveries via GPWSB water infrastructure.

Customer

A customer is defined as an individual or organization that receives a service from the GPWSD.
